Insights
on the Go

Imagine knowing the details of every cow's health and production, or if employees are following ideal milking routines. Consider the power of trend reports that help you make more profitable breeding decisions. **It's all possible through AfiFarm.**

AfiFarm for Every Farm

We've created intuitive software options to suit every type of user:

AfiFarm: A deep dive into farm data with detailed analysis, customizable reports and more

Afi2Go Prime mobile app: Insights and to-do lists for all users, from anywhere

AfiFarm Spark: A simplified approach to actionable cow monitoring data that's

“The reports allow us to take care of a cow quickly and get her back in the milk tank..”

Jacob de Jong
Parkview Dairy

NOW I KNOW

COMPLEX DATA DELIVERED SIMPLY

AfiFarm herd management software is the heart of the Afimilk solution, working to create a comprehensive farm profile with easy-to-analyze insights that can help you enhance performance and increase profitability.

Powerful

Detect issues early for quick, cost-effective interventions.

Flexible

Use standard reports or create custom reports based on your specific needs and goals.

Accurate

Reliable data helps you make informed, profitable decisions.

Easy

The AfiFarm ABC Dashboard puts everything you need for today's most important tasks in one place.

Current status of inventory and production

Attention and action lists with tasks to perform and problems to solve

“ The data we've got on every cow is unbelievable. We can go back on every cow for her whole lifetime and tell you how much milk she gave in any given day. ”

Don Haldeman
Spring Valley Holsteins
